You will wish to be aware that Welsh Government Operational guidance on the delivery of Children's Social Care for local authorities and partners involved in safeguarding children has been published on the Welsh Government website today [22/04/2020].

This guidance will help local authorities and partners continue to provide effective support to vulnerable, at risk and care experienced children, whilst maintaining their statutory duties during the coronavirus outbreak.

The guidance sets out the measures that should be put in place to minimise the impact of the pandemic, during a time when resources available to cope with additional burdens are reduced.
