National Coaching & Mentoring Professional Learning Programme

Why do we need coaching and mentoring?

Developing a coaching and mentoring culture throughout schools and across consortia will provide us with a powerful tool kit to assist in continuing to improve standards of education in Wales. Good coaching is concerned with creating a sustainable high-performance culture. The National Coaching and Mentoring programme enables the development of a group of coaches to support participants accessing our programmes, whilst also providing them with an equitable and consistent offer across Wales.

Increased exposure to coaching and mentoring through the National programme has highlighted that coaching and mentoring is a requirement across all parts of education system. The following coaching professional learning is available for 2021/22 to experienced induction mentors (IMs) and/or external verifiers (EVs) as part of a strategy to improve the coaching skills of induction stakeholders supporting newly qualified teachers (NQTs).

The professional learning coaching programme for induction mentors

Each professional learning programme will be led by a regional ‘facilitator’ coach who will have completed the “National Cross Regional Supervisory Coaching and Mentoring Train the Trainer” programme, provided by Results Driven Group. The virtual PL programme will consist of 10 x 1.5-hour sessions over one term and induction mentors will be provided with relevant coaching and mentoring programme materials. The programme will consist of the following:

Timeframe / Commitment

Autumn / Spring terms 2021 – 2022

Complete the IM coaching programme

Spring / Summer terms 2022

Develop personal coaching skills in a 1:1 context

Summer / Autumn terms 2022 onwards

Rollout IM coaching programme materials to other groups of induction mentors

If you are an experienced induction mentor and/or external verifier with school leadership experience, please register your interest to join a funded IM coaching cohort and go on to deliver coaching PL to other induction mentors
